Dear Colleague,

We have great pleasure in informing you that we shall be organizing the Conference of the South Asia Association of Allergy, Asthma and Clinical Immunology (SAAAACI-2011) at the Vallabhbhai Patel Chest Institute (VPCI), Delhi on 12 and 13 February, 2011. Several eminent speakers of national and international repute will deliver lectures on different areas of allergy, asthma and Immunology.

The VP Chest Institute (Estd. 1949) is a unique postgraduate medical institution devoted for education, research and patient care in chest diseases and allied medical sciences and is located in the heart of the main campus of the University of Delhi. The institute has made significant scientific contributions and is well known internationally. This unique conference will be held at the Golden Jubilee Auditorium of the Vallabhbhai Patel Chest Institute.

The South Asia Association of Allergy, Asthma and Clinical Immunology (SAAAACI) was established and registered in 2008 with its head quarter at the VP Chest Institute, Delhi. The membership of this association is opens to Physicians and Scientists from South Asian Countries (India, Srilanka, Bangladesh, Myanmar, Pakistan, Bhutan and Nepal). The main objective of the Association is to advance the knowledge and research in the field of Allergy, Asthma and Immunology.

The major focus of this conference will be the recent advances in allergy & asthma, as the incidence of both diseases is increasing worldwide. The conference will have plenary lectures, symposia, guest lectures, panel discussions and original research paper presentations.

We took forward to your active participation in the conference.

Thanking you and welcoming you to Delhi.

Dr. Raj Kumar
Organizing Secretary
SAAAACI-2011

Dr. VK Vijayan
Organizing Chairman
SAAAACI-2011

Places to see in Delhi

INDIA GATE

India Gate is a majestic high arch, 42 meters high, built as a memorial to the Indian soldiers killed in the World War I. Beneath it burns an eternal flame. From the base of the arch one can get a good view of the Rashtrapati Bhavan.

A fascinating and wonderful monument! Enjoy the lush green lawns of India Gate, which house the famous boat club and a children's park. The lawn come alive in the evening with picnicking and couples taking a stroll.

Qutub Minar is the tallest brick minaret in the world, and an important example of Indo-Islamic Architecture. The tower is the Qutub complex in South Delhi, India. The Qutub Minar and its monuments are listed as a UNESCO World Heritage Site. The Qutub Minar is 72.5 meters high (237.8 ft) and requires 399 steps to get to the top, although it has not been possible for visitors to ascend the tower for some years, due to safety reasons.

QUTUB MINAR

PARLIAMENT

Parliament House Very close to Rashtrapati Bhavan is situated the imposing Parliament House building another creation of the genius of the Lutyens and Baker. It is a huge circular, colonnaded building where the sessions of Parliament are held. It has a dome-shaped circular Central Hall and three semi-circular structures, the Rajya Sabha, (Upper House), Lok Sabha (Lower House) and the library. A varandah with as many as 144 columns and the boundary wall has blocks of sandstone carved in geometrical patterns, that remind one of the Mughal Jaalis.

Raj Ghat, a memorial to Mahatma Gandhi is a simple black marble platform that marks the spot of his cremation on 31 January 1948. It is left open to the sky while an eternal flame burns perpetually at one end. It is located on the banks of the river Yamuna in Delhi, India. A stone footpath flanked by lawns leads to the walled enclosure that houses the memorial. The memorial has the epitaph *He-Ram* (literally 'O' Ram, but also translated to 'O' God'), believed to be the last word uttered by Gandhi.

RAJ GHAT

LOTUS TEMPLE

Lotus Temple in the heart of New Delhi, the bustling capital of India, a lotus-shaped outline has etched itself on the consciousness of the city's inhabitants, capturing their imagination, fuelling their curiosity, and revolutionising the concept of worship. This is the Bahai Mashriqu'l-Adhak, better known as the "Lotus Temple". With the dawning of every new day, an ever-rising tide of visitors surges to its doorsteps to savour its beauty and bask in its serenely spiritual atmosphere.

Zoo is an institution where mainly wild and exotic animals are restricted within enclosures, bred and displayed to the public. The term zoological garden refers to the biological discipline zoology, which derives from Greek Zoo ("animal"). The term was first used in 1828 for the *London Zoological Gardens*, soon shortened to the abbreviation "zoo".
